

Weekly Progress Report - Week 01

Name: Shivani

Domain: Core Java Programming

Date of Submission: 15-07-2026

I. Overview

During Week 01, I focused on java fundamentals & environment setup. I strengthened my Core Java knowledge through theory, coding practice, and implementation of the Banking Information System project. I improved my understanding of object-oriented programming, debugging, and software development practices while completing assigned internship tasks.

II. Achievements

- Installed JDK, VS Code, and Git.
- Learned Java syntax, variables, data types, operators, loops, and methods.
- Studied Banking Information System requirements.
- Practiced basic Java programs.

III. Challenges

- Understanding object-oriented programming.
- Fixing compilation errors.

IV. Learning Resources

Oracle Java Documentation, Bro Code Java Course, HackerRank practice, mentor guidance, and project documentation.

V. Next Week's Goals

Implement user registration and login modules.

VI. Additional Comments

This week enhanced my programming confidence and practical understanding of Core Java concepts. I improved my coding standards and problem-solving skills while progressing steadily toward completing the internship project.
